

# About Organizational Health, Safety, and Environmental Management System

## Notice on the Conversion of Certification Standards

### **Dear Applicant/Certificate Holder:**

We appreciate your organization's continuous trust and support for Shandong Chuang'an Testing and Certification Group Co., Ltd. (hereinafter referred to as Chuang'an Certification), and for choosing our company to provide you with certification services.

According to Announcement No. 9 of 2025, \

1、 In the Health, Safety, and Environmental Management System Certification Rules, Sinopec's 'HSE Management System Manual' is no longer used as a basis for certification.

2、 In the rules for certification of health, safety, and environmental management systems, the certification basis is retained: Q/SY 08002.1-2022, SY/T 6276-2014 standards.

To ensure the smooth implementation of the health, safety, and environmental management system certification work for all applicant/certified organizations, Chuang'an Certification announces the following regarding the conversion of relevant health, safety, and environmental management system certification standards:

### **1. Work arrangements for applying/changing HSE**

1. Conversion method:

① The certification based on Sinopec's \

② Certified clients intending to add new certification standards shall undergo the initial certification audit.

2. Conversion time: September 2, 2025 to September 5, 2025

From the date of this notice, Chuang'an Certification will no longer conduct audits based on Sinopec's \

3、 The original acceptance certificates based on standards Q/SY 08002.1-2022 and SY/T 6276-2014 will continue to be audited in accordance with the new certification standards.

## **2. Preparations before the new certification standards for certified customers**

Certified clients should perform a gap analysis regarding the proposed additional certification standards, revise the required documented information based on the proposed standards, and keep records of the revisions. Relevant personnel should receive training and evaluation on the proposed additional standards, and records of the training and evaluation should be kept. Certified clients should conduct an internal audit and management review after completing the establishment of the management system for the proposed additional standards.

## **3. Review Time for Applying for Additional Certification Standards**

The audit time for certified customers applying for the addition of new certification standards is planned based on the man-days of the

preliminary audit.

Chuang An Certification will continue to provide professional and efficient certification services. If you have any needs, please contact our customer service staff. For more information, please keep following Chuang An Certification's official website and WeChat public account.
